

Canadian Institute For Cosmetic Dental Education

CI CDE

with Dr. Ron Goodlin

Dear Colleagues:

During my journey to AACD Accreditation, I have learned so many things that I never realized I didn't know. (you don't know what you don't know!) This journey has reshaped my professional and personal life. I am a Dentist who loves Dentistry!

As you know, I am now the President of the TACD, on the Board of Directors of the AACD and the Editor of the Canadian Journal of Cosmetic Dentistry. I have lectured extensively both here at home and across the globe about the techniques I have learned in my 30 year journey as a Dentist and specifically the fundamentals and the techniques that led me to Accreditation. I have been involved in the development and delivery of other cosmetic programs through the University of Toronto, the TACD, the CACD and the IDC.

These experiences have allowed me to gain a unique understanding through first hand feedback of what "answers" and "guidance" dentists are looking for as they develop their technical skills and knowledge, especially in the area of Cosmetic Dentistry.

Over the past several years, my dream has been to organize and "package" all these ideas and concepts into a Comprehensive Cosmetic Continuum and I am thrilled to say, that this has become a reality through the Canadian Institute for Cosmetic Dentistry.

I am tickled that others have now started to try and copy our unique program and I am steadfast and confident in my resolve to provide you with a comprehensive program unlike any other to provide you with the knowledge that has taken me to the level of AACD Accreditation.

The CICDE opportunity is a Continuum that has full CE credits and will be AACD PESA Member-Certified. We teach a minimally invasive approach where predictability translates into self confidence and easy, fun and profitable days in your

office. The program encompasses everything you need to know to have a wonderful, successful and enjoyable Dental Practice and will be hosted at the state-of-the-art Dental Learning Centre in Oakville.

I will be the encouraging face that you see throughout this entire journey at every session. I firmly believe that this dedicated approach will give you the very best chance for continuity, personalization and consistency from start to finish in every aspect of what is presented.

Each day of the 12 -two day modules builds on the last until you gain a proficient, predictable skill set in Cosmetic Dental Procedures. Each day of the Continuum is also a combination of lecture and a Hands-on session so you can take this new knowledge to your practice the very next day.

The unique course is perfect for the young dentist who wants to learn how it's "done in the real world" as well as the experienced dentist looking to upgrade and systemize everyday techniques. This precise approach will allow each participant to easily and effectively integrate all course content, thereby guiding dentists from basic or current understanding to a more advanced skill level. The ultimate goal will ultimately allow for a delivery of more competent, complex quality care.

I would be absolutely thrilled to be able to share and enjoy this experience with you.

The first session is just around the corner and begins on October 31st

Call today!

Sincerely,

Ron
